Byeong il Kim
Director, Head of OSSTEM
Implant EMEA Regional HQ

Dear distinguished customers, ladies and gentlemen,

On behalf of the OSSTEM IMPLANT Europe, Middle East and Africa Regional HQ it is my great pleasure to welcome you all to the first Osstem EMEA Meeting 2011 in Krakow. As a world leading implant company, OSSTEM IMPLANT is committed to contribute full resources to meet your expectations and has made significant progress in innovating product quality. As a result, we are proud to have achieved the highest level of quality and technology that the world recognizes. In 2011, practitioners have enthusiastically responded to the launching of the Osstem TS Implant System that has a greatly improved osseointegration, as well as to the debut of the CAS-KIT & LAS-KIT.

At OSSTEM IMPLANT, we strive for technology and quality differentiation in order to put our customers at the centre of everything we do. I am well aware that there is a wide range of options to choose from, and thus, am grateful that many of you have continued to support us. We do not take this for granted.

We hope all of you enjoy the highest level of implant lectures and other programs during this meeting. Please enjoy your stay with us here in Krakow and let it be the most pleasant and memorable one. On behalf of the company, I sincerely wish you endless blessings and prosperity.

Byeong il Kim
Director, Head of Osstem Implant EMEA Regional HQ

Chairman Prof. Ady Palti

Dear colleagues and friends,

It is with great pleasure to invite you to the 1st OSSTEM European Meeting. Challenged to meet your expectations, this year's meeting is hosting some of the most prominent lecturers, well-acknowledged for their clinical, academic and researching contributions to the field of dental implantology world-wide.

It is a great honor for me to be entrusted with organizing the first European OSSTEM Meeting in Krakow. I would like to welcome you to this outstanding Meeting 2011 which will take place in the beautiful city of Krakow, Poland, November 4th - 5th. "Perfect and natural esthetic appearance" through optimal rehabilitation and long-term stability of hard and soft tissue is the goal of modern implantology. This meeting provides an excellent opportunity for clinicians to do Hands-Ons with the CAS-KIT and LAS-KIT and to receive the latest clinical and technological information in the field of implant dentistry.

On Friday evening we will have our magnificent OSSTEM Night in the famous Cultural and Natural Heritage - the Wieliczka Salt Mines. Over a period of more than 700 years many generations of local miners have created the underground world, exceptional in its beauty with rich interior decoration of the chapel, the original linings of the galleries and workings, and the underground salt lakes. Come and join us, find new friends, make new relationships and let's have an unforgettable time in Krakow.

Prof. Ady Palti
Chairman

Program Friday, Nov. 4th Radisson Blu, Conferenceroom

Moderator: Dr. Marcin Wisniewski			
08:00am	08:20am	Prof. Ady Palti, Byeong il Kim	Grand Opening
08:30am	10:00am	Dr. Joseph Choukroun Dr. Roland Török	Updates in soft and hard tissue management: Scientific basis and clinical applications Biomaterials and growth factors
10:00am	10:15am		Coffee break
10:15am	11:15am	Prof. Ady Palti	4D Planning for perfect aesthetics: New technologies in oral implantology
11:15am	12:00am	Dr. Claudio Gatti	Intraoral autologous bone harvesting for dental implant treatment: Different techniques to perform a ridge augmentation
12:00am	12:45pm	Dr. Marek Rybicki	Mini dental implants - new gold standard in overden- ture treatment?
12:45am	01:00pm		Discussion
01:00pm	02:00pm		Lunch break
Moderator: Dr. Karl Iver Hanvold			
02:00pm	03:00pm	Dr. Henriette Lerner	Micro and macro aesthetics in full arch rehabilitations
03:00pm	03:45pm	ZTM Haristos Girinis	Implantological prosthetics - aesthetically, technically, functionally
03:45pm	04:00pm		Coffee break
04:00pm	05:00pm	Dr. Olaf Daum	Sinus lift crestal
05:00pm	06:00pm	Dr. Patrick Wu	The aesthetic replacement of single missing teeth using OSSTEM implants - all you need to know
06:00pm	06:30pm		Free time
06:30pm	07:00pm		Shuttle Service to the OSSTEM Night - departure in front of the hotel
07:00pm			OSSTEM Night in the famous Salt Mine

Program Saturday, Nov. 5th Radisson Blu, Conferenceroom

Moderator: Dr. Vladimer Margvelashvili			
08:00am	08:25am	Dr. Paweł Głębowski	Advantages of bone preparation for aesthetic prosthesis; Highway to stars - modern Ultra-Wide implant
08:25am	08:50am	Dr. Khurram Ataullah	Why OSSTEM Implants make life easy in anatomically challenging situations - Ossteotome Sinus lift
08:50am	09:20am	Dr. João Pedro Almeida	TS III, GS III Case
09:20am	09:55am	Dr. Mariusz Duda	Simple or complicated implant case?
09:55am	10:10am		Coffee break
10:10am	10:35am	Dr. Milan Radulovic	Platform switching - is it standard for contemporary implant systems?
10:35am	11:00am	Dr. Christopher Sim	Aesthetic Dental Implants in the atrophic premaxilla: Is it an achievable goal?
11:00am	12:00am	Dr. Yong-Seok Cho	LIVE surgery
12:00pm	01:00pm		Lunch break
Moderator: Dr. Vladimer Margvelashvili			
01:00pm	02:00pm	Dr. Paweł Głębowski	LIVE surgery
02:00pm	02:30pm	Dr. Saeed Alzahrani	Alveolar ridge alterations and rational immediate intervention
02:30pm	03:00pm	Dr. Dr. Boworn Klongnoi	Sinus lift: From classic to modified and simplified
03:00pm	03:30pm	Dr. Samer Kasabah	Our experience with maxillary sinus mucosa perforation: incidence, prevention and management
03:30pm	03:45pm		Coffee break
03:45pm	04:15pm	Dr. Talat Bugur	Comparing HiOssen's CAS-KIT with conventional osteotome sinus lift techniques
04:15pm	04:45pm	Dr. Francesco Mintrone	Aesthetic approach in the anterior rehabilitation
04:45pm	05:00pm		Discussion and farewell

Unforeseen events can cause program variations.

Detailed information concerning the speakers, moderators and surgeons can be found on the following pages.

OSSTEM Night in the beautiful Salt Mine on Friday, November 4th

The OSSTEM Night is a pleasant ending for the day in a relaxed atmosphere. In the beautiful Salt Mine you have the opportunity to directly talk to the speakers and other colleagues, or you just enjoy a comfortable evening.

As the OSSTEM Night will start with a guided tour through the Salt Mine going down the small tunnels many meters below the surface, the dress code is casual clothes and convenient shoes so that you feel comfortable enough for the 30-minute tour as well as for the Salsa dance!

A fantastic program can be expected by all participants:

- 🕒 The transfer to the salt mine will start in front of the hotel at 6:30pm
- 🕒 OSSTEM Night will start at 7:00pm
- 🕒 Tour through the wonderful and beautiful Salt Mine
- 🕒 Dinner: 4 course menu
- 🕒 Salsa Show
- 🕒 Live Music Dancing Band

We are looking forward to an unforgettable time with you!

Chairman Prof. Ady Palti

Topic: 4D Planning for perfect aesthetics:
New technologies in oral implantology

Speech: Friday, 10:15am to 11:15am

Nationality:  (**German**)

Curriculum Vitae:

Currently: professor at New York University College of Dentistry and clinical professor at Boston University Dental School Center of Implantology and at Temple University Philadelphia Department for Periodontology & Implantology. Past: president of German Society of Oral Implantology (DGOI), president of International Congress of Oral Implantologists (ICOI). Lectures worldwide and publishes on new technologies in oral implantology, main focus on 3D technologies and immediate loading. Private practice in Baden-Baden. Director of the International Academy of Implantology (IAI) in Baden-Baden, Clinical Director of the Videnti Clinic in Baden-Baden focusing on Implantology and Esthetic Dentistry.

Dr. João Pedro Almeida

Topic: TS III, GS III Case

Speech: Saturday, 08:50am to 09:20am

Nationality:  (**Portuguese**)

Curriculum Vitae:

DMD - 1993; Course Certificate in Implant Surgery ad modum Branemark, by Västerås Central Hospital-Sweden - 1997

Research member on biofabrication of scaffolds for tissue engineering of the CDRSP - Centre for Rapid and Sustainable Product Development - Polytechnic Institute of Leiria, Portugal

PhD student on bone tissue engineering - DEQ Chemical Engineering Department of the Sciences and Technology Faculty of the University of Coimbra, Portugal.

Dr. Saeed Alzahrani

Topic: Alveolar ridge alterations and rational immediate intervention

Speech: Saturday, 02:00pm to 02:30pm

Nationality:  (Saudi Arabian)

Curriculum Vitae:

Senior lecturer at workshops about dental implants surgery, bone grafting and dental implants, prosthetics (single, hybrid, porcelain fused to metal fixed, over-denture - locator, ball, milled bar, etc.), mini implants.

Researcher and main investigator on scrutinizing scientific growth and development on dental implantology.

Mentor for SBARD / AGD residents for the last ten years - guiding them in setting up the finest way of preparing the dental implant treatment plan.

Author and critic of Arabic newspapers, journals and magazines.

Main speaker, presenter and commentator on TV shows regarding dental issues especially dental implants.

Dr. Khurram Ataullah

Topic: Why OSSTEM Implants make life easy in anatomically challenging situations - Ossteotome Sinus lift

Speech: Saturday, 08:25am to 08:50am

Nationality:  (Pakistani)

Curriculum Vitae:

Diploma in Human Resource Management - May 2009 Pakistan Institute of Management, Government of Pakistan, Ministry of Industries & Productions

Membership in Restorative Dentistry (MRD RCSED)- September 2005,

Royal College of Surgeons of Edinburgh, UK

Master of Dental Surgery (MDS) Periodontology - June 2005

Faculty of Dentistry, National University of Singapore

Bachelor of Dental Surgery (BDS) - with Honors - August 1999

Best graduate for securing 1st position in all university professionals & distinctions in the subjects of oral surgery and oral anatomy & histology

de' Montmorency College of Dentistry, University of the Punjab, Lahore, Pakistan

Dr. Talat Bugur

Topic: Comparing Hiossen's CAS-KIT with conventional osteotome sinus lift techniques

Speech: Saturday, 03:45pm to 04:15pm

Nationality:  (Turkish)

Curriculum Vitae:

D.D.S. Faculty of Dentistry, University of Istanbul

PhD Faculty of Dentistry, University of Bordeaux II(Periodontology)

D.U. Faculty of Medicine, University of Bordeaux II (Anatomie Cranio-Faciale et Cervicale)

Chief of the HiOssen Implant Training Center-Istanbul

Director of the Laser-Implantology Center, Istanbul, Turkey

President of the Turkish-French Dental Association

Active member of the International Academy of Peridontology

Honorable president of the Students Research Club of the Dental Faculty of Istanbul University

Dr. Joseph Choukroun

Topic: Updates in soft and hard tissue management: Scientific basis and clinical applications; Biomaterials and growth factors

Speech: Friday, 08:30am to 10:00am

Nationality:  (French)

Curriculum Vitae:

Diploma: Medicine 1979, University of Montpellier, France

Anesthesiology 1981, University of Montpellier, France

Study of Management of Pain 1986, University of Strasbourg, France

Chief of Staff: Private Pain therapy Center, Nice, France

Inventor of the PRF® technique. "Platelet Rich Fibrin" (autologous platelet growth factors) 2000

President of the Syfac Congress: International Symposium on Growth Factors:
www.syfac.com

International speaker

Dr. Olaf Daum

Topic: Sinus lift crestal

Speech: Friday, 04:00pm to 05:00pm

Nationality:  (**German**)

Curriculum Vitae:

1998 Graduate from Ruprecht-Karls-University, Heidelberg, Germany
2001 Co-owner of a private practice, Leimen, Germany
2003 Curriculum of the German implant society (DGZI) and Boston University
"Advanced Course in Implantology" (Dr. Jacobson, Dr. Palti, Dr. Price and Dr. Cottrell)
2004 Founding member of German implant society (DGOI)
2008 Senior lecturer, Steigmann-Institute, Neckargemünd, Heidelberg

Member of DGOI, ICOI, FIZ - Forum Innovative Dentistry, Heidelberg, Germany

Dr. Mariusz Duda

Topic: Simple or complicated implant case?

Speech: Saturday, 09:20am to 09:55am

Nationality:  (**Polish**)

Curriculum Vitae:

A graduate of Medical University of Silesia. Dentistry surgeon specialist, an organizer and author of trainings and publications in implant dentistry. Diplomate of ICOI. Lecturer and Scientific Director of Polish edition "Implantology Curriculum". He runs Implantology Clinics in Katowice. President of PSI and Vice-president of ICOI and DGOI in Poland. Editor of Polish edition "Implant Dentistry" of M. Block. Editor-in-chief of Ms. Block "Implant Dentistry" polish version and a member of the Council of Science of "Implant Dentistry"

Dr. Claudio Gatti

Topic: Intraoral autologous bone harvesting for dental implant treatment: Different techniques to perform a ridge augmentation

Speech: Friday, 11:15am to 12:00am

Nationality:  (Italian)

Curriculum Vitae:

Dr. Gatti graduated from the University of Milan, Italy, with a Medical degree in 1977 and with a DMD degree in 1979.

Visiting professor and tutor at the Dental School of the University of Milan - San Paolo Hospital from 1981 to 1994.

Active member of the Italian Society of Periodontology (SidP) from 1984.
